

Mariana Reis

FRONTEND DEVELOPER

Profile

I am a savvy Frontend Developer with extensive knowledge of web technologies such as Vue.js, TailwindCSS, and Blade.php. I am a skilled problem-solver with a keen eye for detail, with solid experience developing complex web applications and bespoke web designs across multiple industries.

Wanting to deepen my expertise further, I am particularly interested in challenging myself to work on a sophisticated SaaS platform where I can bring my technical aptitude and diverse perspective to bear.

Employment History

Front End Developer, Red Snapper Ltd, London

MARCH 2021 – PRESENT

- Developed various bespoke web applications across multiple industries, integrating them with an in-house CMS, providing exceptional user experience and making it easy to manage content by clients without technical knowledge.
- Mentored and supervised junior developers to create 20+ web pages, guiding them on best practices, code review, and assisting with complex issues.
- Built 35+ microsites, each with unique design and client requirements, utilising best HTML 5 practices and user-centric design principles for optimal SEO performance.
- Spearheaded the tech stack upgrade for AstroJS, VueJS3, and TailwindCSS 3 for one client. It streamlined our development process, resulting in faster delivery times and higher-quality project outputs.

General Store Manager, Maître Choux, London

FEBRUARY 2019 – MARCH 2021

- Developed innovative strategies to optimize and expand online and in-store traffic with the collaboration of other store managers.
- Supervised and coordinate supplier orders, monitored inventory levels and reduced operating costs.
- Oversaw the hiring, training, and scheduling of staff, ensuring that all employees were motivated, knowledgeable, and customer-focused.
- Monitored and analyzed sales data to identify trends and opportunities for improvement.
- Communicated seamlessly in English, Italian, and Portuguese to assist customers in their preferred language, improving customer experience and ensuring that orders were taken accurately.
- Managed customer pressure, complaints, and concerns professionally and thoughtfully to keep the company's high customer service standards.

Education
